@VeoliaWaterNJ

Please register any question or complaint about the bill prior to the due date.
Always remember to include your account number on any correspondence to us.

Veolia Water Conservation Tip

Install an efficient showerhead. Showering is one of the largest indoor water uses. WaterSense showerheads can help you save water, energy and money. Scan the QR Code for additional Conservation Tips.

ADDITIONAL IMPORTANT MESSAGES

PLEASE BE ADVISED THAT ANY PAST DUE BALANCES WILL BE SUBJECT TO THIS YEARS LIEN SALE.

Please be advised that your solid waste billing period may differ from your meter reading period. Solid waste charges are based on the invoice dates - calculated from last invoice date to current invoice date. Water/Sewer charges are based on the meter reading dates - calculated from the last meter reading date to the current meter reading date.

Your account has been estimated. We are unable to obtain an actual meter reading. Kindly call us at 800-575-4433 to schedule a meter reading. Failure to call for an appointment may lead to fines and water shut-off.

TO OUR VALUED CUSTOMERS: We know that these times can be challenging. If you need assistance paying your water bill, programs are available to help. Please call us to discuss payment plan or financial assistance options.

In an effort to improve our communications with our customers, please provide us with your most updated telephone number and email address by contacting customer service.

8"	$1,362.50
10"	$1,362.50
12"	$1,362.50

Reminder of Electrical Ground Requirement

As directed by the Jersey City Municipal Utilities Authority, Veolia Water may have recently replaced the water meter at your property. At that time, the person performing the meter change may have provided you with a written recommendation that a suitable grounding wire may be installed on your water piping to ensure electrical continuity across the water meter. This recommendation was given because the new water meter that was installed is made from non-metallic material that may interrupt electrical grounding within the house and/or the installer felt that there was not a suitable ground wire present.

The National Electric Code requires that grounding stages be installed on either side of the meter.

This letter serves a formal notice of the requirement and as a reminder in case you have not had a proper electrical grounding wire installed. It is recommended you contact a licensed electrician to ensure that your electrical system is properly grounded.

Call if you have any questions.

Reminder of Electrical Ground Requirement

As directed by the Jersey City Municipal Utilities Authority, Veolia Water may have recently replaced the water meter at your property. At that time, the person performing the meter change may have provided you with a written recommendation that a suitable grounding wire may be installed on your water piping to ensure electrical continuity across the water meter. This recommendation was given because the new water meter that was installed is made from non-metallic material that may interrupt electrical grounding within the house and/or the installer felt that there was not a suitable ground wire present.

The National Electric Code requires that grounding stages be installed on either side of the meter.

This letter serves a formal notice of the requirement and as a reminder in case you have not had a proper electrical grounding wire installed. It is recommended you contact a licensed electrician to ensure that your electrical system is properly grounded.

Call if you have any questions.
