Reminder of Electrical Ground Requirement

As directed by the Jersey City Municipal Utilities Authority, Veolia Water may have recently replaced the water meter at your property. At that time, the person performing the meter change may have provided you with a written recommendation that a suitable grounding wire may be installed on your water piping to ensure electrical continuity across the water meter. This recommendation was given because the new water meter that was installed is made from non-metallic material that may interrupt electrical grounding within the house and/or the installer felt that there was not a suitable ground wire present.

The National Electric Code requires that grounding stages be installed on either side of the meter.

This letter serves a formal notice of the requirement and as a reminder in case you have not had a proper electrical grounding wire installed. It is recommended you contact a licensed electrician to ensure that your electrical system is properly grounded.

Call if you have any questions.

PLEASE BE ADVISED THAT ANY PAST DUE BALANCES WILL BE SUBJECT TO THIS YEARS LIEN SALE.

Your consumption is based on an actual reading of your water meter.

The latest reading from your meter is showing high usage at the property. We strongly urge you to look into this matter to avoid any further high bills and/or wasted water. If you would like to discuss this matter further, please call our customer center and a customer service representative will be happy to assist you.
